Re: Habitat for Humanity
Sunderland Grant Application

To Whom It May Concern,

On behalf of the City of Rogers, Arkansas, I am pleased to write this letter in support of Habitat for Humanity Benton County's grant application.

As I'm sure you are well aware, Habitat for Humanity Benton County provides a valuable service to Northwest Arkansas. It has built approximately 81 homes in its 20 year history with a new build beginning in Rogers right now. Over 253 individuals have been helped to obtain safe and affordable housing through this organization. Habitat for Humanity Benton County also serves as a rallying point for many volunteers who want to support a family and better the community. This is all extremely important as Northwest Arkansas recovers from the fiscal impacts of the pandemic.

I have been personally affected by the mission of Habitat for Humanity. As a teenager, I had the opportunity to serve with the organization and credit my time there as a beginning to what turned into a career in public service. Coming full circle, I am excited to continue to partner with this organization for the betterment of the community.

Habitat for Humanity Benton County addresses real needs in our community and our region, and I am proud to support their mission. I encourage you to give their grant application every consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Hines", is written over a faint, larger version of the same signature.

Mayor Greg Hines
City of Rogers, Arkansas
